DOCKET FILE COPY ORIGINAL

Re: *In the Matter of Applications of Charter Communications, Inc. ("Charter"), Time Warner Cable Inc., and Advance/Newhouse Partnership for Consent to Transfer Control of Licenses and Authorizations*, MB Docket No. 15-149

Dear Ms. Dortch,

I respectfully submit this supplement to my comment dated September 27 to the Commission for the denial of the Applications referenced above. This supplement is not intended to present new issues, but rather clarify certain statements made and provide new information directly linked to my comment of September 27, 2015.

I presented in my comment to the Commission fact-based bullying, non-compliance, avoidance, maliciousness, withholding information from the FCC and more. On October 2—four days after my submission was posted and Directors of Charter and Charter's counsel received a copy of my comment via direct email addresses—Charter disconnected my Internet service.

I note that with a letter dated October 2, 2015 John L. Flynn, of Jenner & Block LLP and counsel to Charter, submitted a comment that on September 30, 2015 representatives of Charter met via telephone with Federal Communications Commission staff, and that one of the two Charter staff involved was Larry Christopher, Vice President and Associate General Counsel, Litigation/Chief Compliance Officer. As noted by Mr. Flynn, "During the meetings, the Charter representatives discussed clarifications regarding the Commission's data-related information requests...."

The following details were provided in my comment of September 27, but I now highlight only the communications that relate to Charter's General Counsel and Larry Christopher:

Letter	Addressee	Via	Tracking	State
- 05/21/2014	General Counsel	Certified Mail	7013263000011...8078	MO
- 07/05/2014	General Counsel	Certified Mail	7014015000012...3940	MO

I suggest to the Commission that commenters presented as representative of particular groups of the public—constituencies—should either be disqualified in the process or considered with the same weight as a single consumer, which should generate inquiries as to how they became so informed of New Charter's benefits. It is offensive to me as an interested person that a plethora of public officials have representatively commented in the Applicants' corporate favor, as though coordinated lobbyist efforts have occurred at local, state and federal levels to feign the public.

I urge the Commission to require Charter Communications to provide a detailed explanation as to why my Internet service was disconnected on October 2, 2015.

Sincerely,

Shawn Sheridan
Turlock, California
